Professional Summary

Full-stack Developer with 8+ years of experience building scalable **web and mobile applications**, now transitioning into **technical leadership** roles. Proficient in **JavaScript, TypeScript, React.js, Next.js, Node.js**, and **Nest.js**, with strong skills in **MongoDB** and **PostgreSQL**. Experienced in **mentoring, leading scrums**, and delivering high-quality features. Recently integrated **Generative AI tools** (ChatGPT, Copilot, Claude AI) to enhance productivity. Aiming for a hands-on **Technical Lead** or **Project Owner** role that bridges **technical execution** and **business goals**.

SKILLS

- JavaScript / TypeScript
- Next.js (App & Page Router)
- PostgreSQL / MongoDB
- Open AI / Claude AI / Cursor AI
- React.js / React Native
- Node.js / Nest.js
- Docker / GitHub Actions
- AWS (EC2, S3, RDS, Amplify)

WORK EXPERIENCE

Senior Software Engineer, 03/2023 to Current

BOLD Technologies – Noida, India

- Integrated Generative AI tools like Claude AI, Cursor AI, and GitHub Copilot to boost development productivity.
- Leading a small team, mentoring juniors, and collaborating with PMs, devs, QA, and clients to drive execution and resolve technical issues.
- Increased job match accuracy by 25% by improving search and match algorithms on FlexJobs.
- Built robust backend APIs in **Node.js** using **Nest.js**, leveraging **TypeORM** and **PostgreSQL**.
- Managed multiple projects simultaneously while maintaining strict deadlines and high-quality standards.

Developer - IT, 11/2021 to 03/2023

Dyninno India – Gurgaon, India

- Transitioned into full-stack development with **Node.js** and **MongoDB**, building secure REST APIs using **TypeScript**.

- Strengthened front-end codebase using **React**, **Next.js**, and **TypeScript**, focusing on internationalization with i18next.
- Contributed to CI/CD processes using Docker, Kubernetes, and GitLab pipelines.

Software Development Engineer, 02/2020 to 11/2021

Inn-Flow – Faridabad, Haryana

- Applied modern JavaScript techniques using npm packages like **bcrypt**, **passportJS**, JWT, multer, and uuid.
- Integrated third-party APIs to expand application capabilities and improve overall performance.
- Updated old code bases to modern development standards, improving functionality.

Software Development Engineer, 05/2019 to 01/2020

Incred Applications

- Focused on **front-end development** using **JavaScript (ES6)**, delivering 4 successful projects including the **Kalakar portal**, a media community platform.
- Built reusable UI components and optimized user experiences using React.

Programmer Analyst, 09/2016 to 05/2019

Wipro Technologies Ltd.

- Initiated JavaScript journey by building reusable components with **ES6** and **React** for multiple web-based portals.
- Achievements/Gained foundational experience in **component design**, **form validation**, and modular UI development using modern JS practices.

Projects

Hi-Fi Infirmary Portal

2015 – 2016 | *Vanilla JS, Bootstrap, Google Places API*

- Developed a web app to help users locate **nearby ambulances, hospitals, pharmacies, and blood donors** based on **city and location**, using the *Vanilla JS, Bootstrap and Google Places API*.
- Awarded **3rd place in the MobiCom Innovation Contest** for its impactful approach to real-time healthcare accessibility.
